I am honored to be included among Hawaii's Top Wealth Managers.

While I strive to remain a very good estate planning attorney and an astute certified public accountant, my greatest satisfaction is derived from the service that I provide my clients as their financial advisor. Why? Because my clients express great satisfaction with my service. They call it, Peace of Mind. My goal is to accept a few more financial advisory clients, but mostly, to keep the clients that I have, satisfied, for many years to come. Satisfied means clients who feel secure in their financial future, and that they have an advisor that they can trust. While I have worked hard for this honor that I have attained, Hawaii has also been good to me. I am thankful that my mother brought my sister and I to Hawaii 40 years ago, for although I love my work, I have come to love these Islands and its people even more.

Mahalo and Aloha,
Michelle H. Tucker
