Investor Profile Questionnaire

Introduction

In order to develop a comprehensive wealth plan for you and your family, we need to establish an accurate picture of your current financial situation. This document was designed to provide us with the information we need to begin putting together a plan to address your long-term financial needs and goals. Please take the time to completely and accurately answer the questions on the following pages.

So that we can get the most out of your next meeting, it is essential that you bring the following documents (as applicable) along with this completed document:

- Most recent statements from your Current Investments (Brokerage Statements, Mutual Fund Statements, Annuity Statements, Bank Statements)
- Most recent statements from your Employer's Qualified Retirement Plan (401(k), 403(b), Profit Sharing, Money Purchase Pension, Defined Benefit, etc.)
- Most recent statements from your Individual Retirement Accounts (IRAs, Roth IRAs, Inherited IRAs)
- Most recent statements from your 529 Plan (Qualified State Tuition Program)
- All Insurance Policies (Life, Disability, Long Term Care, Health, Homeowners etc.)
- Tax Returns for the last 2 years
- A current copy of your wills, trusts, power of attorneys etc.

Investor Profile Questionnaire

Portfolio Objective (Check only one box)

- CAPITAL PRESERVATION** — My primary objective for the portfolio is capital preservation. Emphasis is placed on the prevention of capital while achieving a return that meets or exceeds inflation.
- INCOME** — My primary objective for the portfolio is to generate income. I understand that preservation of capital may not always be consistent with this objective, and the portfolio will be subject to fluctuation. I specifically am not seeking long-term capital appreciation in the value of my portfolio.
- GROWTH** — My primary investment objective for the portfolio is long term capital appreciation. I understand that the value of the investments within my portfolio, as well as the portfolio as a whole, will be subject to fluctuation.
- AGGRESSIVE GROWTH** — My primary investment objective is to seek the highest gains in my portfolio. I understand that the value of the investments within my portfolio, as well as the portfolio as a whole, will be subject to significant fluctuation.

Investment Experience? Yes No

Stocks: _____ years. Bonds: _____ years. Mutual Funds: _____ years. Options: _____ years.
Annuities: _____ years. Other: (*Specify*) _____, _____ years.

Time Horizon (Check only one box)

An important consideration is your investment time horizon — the length of time you will remain fully invested. Because of the increased possibility of losses, there should be a minimal allocation to stocks in portfolios with relatively short investment time horizons.

How long do you plan to hold this investment portfolio?

- Less than 5 years
- 5 to 9 years
- 10 to 19 years
- 20 years or more

Liquidity/Cash Needs

Beyond your income needs above, will you need to make significant withdrawals from your portfolio within the next five years to fund major expenses (i.e. college funding, vacation home)?

If yes, please indicate the estimated amount of withdrawals as a percentage of your portfolio:

- Less than 15%
- 15 – 35%
- 35 – 50%
- 50 – 60%
- 60 – 75%
- 75 – 100%

Investor Profile Questionnaire

Portfolio Returns vs. Potential Losses

What level of returns do you expect from your portfolio and what losses can you withstand?

The example below is for illustrative purposes only and not representative of any specific investment. The table below shows six hypothetical portfolios and their greatest 1-year loss and highest 1-year gain for a hypothetical investment of \$100,000.

Which portfolio would you feel most comfortable with?

The above example is for illustrative purposes only and is not intended to represent a specific investment or portfolio of investments. The highest 1-year gain and greatest 1-year loss are based on rolling 12 month returns from January 1972 to December 2010 for portfolios represented by Five-Year U.S. Treasury Notes and the S&P 500 Index. Returns assume the reinvestment of dividends and capital gains, but do not include the deduction of management fees or taxes, which will reduce an investor's returns. Indices are unmanaged and do not reflect the payment of advisory fees and other expenses associated with an investment in a mutual fund or separate account. Investors cannot directly invest in an index. Portfolios were constructed using the following assumptions:

	Five-Year U.S. Treasury Notes	S&P 500 Index		Five-Year U.S. Treasury Notes	S&P 500 Index
Portfolio A	75%	25%	Portfolio D	35%	65%
Portfolio B	60%	40%	Portfolio E	15%	85%
Portfolio C	50%	50%	Portfolio F	2%	98%
